Please note: The proposals on display at this event are still under development and may be subject to change. Images and visualisations are indicative only, and the completed Scheme may differ.

The defence heights given on this board are the maximum height of flood defence from existing ground level. Some flood defences will be lower than the height shown.

Forth Estuary – Flood Defences

- Flood Defences: 3.7 km

Avon – Flood Defences

- Flood Defences: 3.6 km

Flood defences would be required at these locations on the River Avon and Forth Estuary.
